Small Business WIFI Standard* – Connect all of your wireless enabled devices with a worry-free high quality wireless network. Additional benefits include: free installation of the wireless router, connection to all of your devices, password protection for your wireless network, and assistance from our help desk. Our help desk provides technical support for setup and will also help you add additional devices to your wireless network.

*Wireless Access Points available for larger businesses.

Commercial Grade Internet

Upcountry Fiber offers Commercial Grade Internet for those customers who have very high data usage and that require a higher level of service than our standard "best effort" Internet, such as Metro E type services.

Upcountry Fiber's Commercial Grade Internet service includes:

- 24x7 support
- Guaranteed uptime – 99.999%
- Guaranteed constant bit rate symmetrical speed
- Quality of service priority of Internet traffic
- Up to 4 static IP addresses
- Guaranteed mean time to repair of 4 hours
- Proactive monitoring of service to detect outages
- Formal service level agreement (SLA)
